

FIRE SURROUNDS

No matter how large the room it is invariably the fire place which attracts the visitors attention first. And it is the fire surround which has the ability to create the perfect setting for the fire itself. Simply Elegant's portfolio of fire surrounds includes designs which reflect the classical English and French, through to the less formal Spanish presentation.

All Simply Elegant fire surrounds are manufactured from non-combustible, specially hardened plaster which is far more durable than the conventional material. They can be used in conjunction with any type of hearth, back panel and fire and will readily accept all types of paint finish.
